**1) DEED Annual Conference Highlights: Postcard Sessions, Panels, Workshops, and more!**

The [infographic of the DEED technical program](#) at ASEE 2017 is your one-stop shop for everything DEED in Columbus. You should check it out and....

- Revel in the rapid-fire **Postcard** Sessions!
- Feel welcome at a panel on increasing **gender inclusivity**
- **Envision the future of engineering design education** at both a panel and a workshop
- **Hone your skills\*\*** at workshops on **biomimicry** and **self-regulated learning** in engineering design projects.
- **Come meet our Award Winners** –our inaugural Distinguished Service Award winner and the [4 student essay contest winners](#).... each depicting a provocative view about the future of engineering design education...
  - When can you meet them? During our **Tuesday evening 1-2 punch** of the Business Meeting followed by Dinner\*
- And, of course, even more!!!!

*\*The dinner is open to all* – we'll meet right after the business meeting (meet at 6:00 on Tuesday at the business meeting room) and go to a Melt. There is no cost to sign up for this (and you can show up even if you don't sign up) – as everyone is to pay for their own dinner. BUT, we urge you to bring some cash (not only credit) so that we can more easily handle the check at the end [**\*\*in other words, after you hone your skills (at the DEED workshops), we do need to pay the bills (at the DEED dinner)**].

## 4) Expert Input: Sustainable Design Rubric

The purpose of this email is to ask for your assistance in the development of a Sustainable Design Rubric. It is our goal to identify criteria that are applicable across engineering disciplines. We believe the resulting rubric will be a valuable tool for student learning and for assessing sustainability-oriented objectives in engineering capstone and design projects. And, we believe it will be a much better tool with your input! Please take a few minutes to provide us your expert judgment following the link below.

If you have any questions or concerns regarding this email or this project, please contact Elise M. Barrella, Ph.D., Department of Engineering, James Madison University at [barrelem@jmu.edu](mailto:barrelem@jmu.edu).

## 5) Position Announcement: Managing Director at University of Michigan Center for Socially Engaged Design

A managing director is sought to lead The [Center for Socially Engaged Design](#) in the University of Michigan College of Engineering. At one of the world's leading research and educational

institutions, The Center for Socially Engaged Design (C-SED) empowers students and design practitioners with perspectives and skills needed to design effective interventions that are impactful for society. We believe this requires designers to take into account the fullest social, cultural, economic, and environmental contexts of their design process and push designers to recognize and analyze how their own cultural contexts shape their approach. C-SED provides novel educational resources and fosters a community of research and practice at the University of Michigan.
