(2) 8th IEEE Integrated STEM Education Conference – October 2017

We will begin accepting submissions to the **8th IEEE Integrated STEM Education Conference (ISEC '18)** on 10.15.17. ISEC is known for featuring cutting-edge research and experiences with integrated approaches to the study of science, math, and technology through experiences and activities based in engineering and other design disciplines. It will be held on Saturday, 3.10.18 at the Friend Center, Princeton University.

Submissions are accepted in three categories: **Papers** (full or WIP), **Posters** by K-12 students, and **Workshops**. Please see the full CFP on the conference website, ewh.ieee.org/conf/stem, and our Facebook page for details on paper format requirements and templates, fees, and other conference information; follow us on Twitter @IEEE_ISEC; and like us on Facebook. (3) Assistant Dean & Director of Integrated Engineering Design – University of Tennessee Knoxville

The Tickle College of Engineering at the University of Tennessee Knoxville is searching to fill the position of the endowed **Edwards Assistant Dean & Director of Integrated Engineering Design**. The position will lead efforts to develop undergraduate design experiences within and across our engineering programs, implement and manage the primary design facilities for the College, and serve as the face of our student design programs to our internal and external partners. More information about the position may be found at www.engr.utk.edu/edwards-assistant-dean-integrated-engineering-design.

(4) Call for Chapters: The Literacies of Design: Studies of Equity and Imagination with Engineering and Making

For this book, we are interested in studies that illuminate communication practices or literacies of design as it relates to the material world. Under recognition that the products and methods of engineering have been deployed in ways that perpetuate marginalization, we are especially interested in studies that explore relationships between literacies, equity, and engineering/making/tinkering.

We are calling for chapters that use original empirical (qualitative or quantitative) studies to offer insights, challenges, or extensions to current conceptions of *literacies of design* or *design communication*.

If you are interested in contributing a chapter, we request that a summary of around 750-1000 words be sent to Amy Wilson-Lopez, at amy.wilson-lopez@usu.edu, by October 31, 2017. Please also feel free to contact Amy if you have further questions about the nature or scope of the book.

The Editorial Team
Amy Wilson-Lopez, Utah State University
Joel Alejandro Mejia, University of San Diego
Eli Tucker-Raymond, TERC
Alberto Esquinca, University of Texas at El Paso
